

Notes from Bob ...

11/23/2024

We've started moving our "most rural" customers in Forks and Joyce over to 3 GHz CBRS (Citizens Broadband Radio Service).

We optimized our backhaul into Lake Sutherland. We now offer 50 Mbps speeds. Not available in all areas. Some restrictions apply. Reach out/read below for details.

Our three advertised rates now have a "Know More" tab which goes to a Broadband Facts page that lists what we offer, the price, and any other details. This detail is now required by the FCC for all Advertised Residential rate plans.

New	Fixed Wireless	Residential Plans
-----	----------------	-------------------

Effectible 12/5/2024 Invoice for the Bill Cycle of 12/23/24 thru 1/22/25.

25 Mbps x 3 Mbps; \$79.95 MFC (\$5.00 increase)

50 Mbps x 10 Mbps: \$99.95 MRC

100* Mbps x 20 Mbps: \$99.95 MRC (Available: Chinook, Forks)

Ask about Fiber Broadband and Business Fixed Wireless Plans.

Plan Details: 100 Mbps plans only available where we have Fiber to the AP. The 20 Mbps plan is being merged into the 25 Mbps Plan and the 30 Mbps plan is being merged into the 50 Mbps plan at the end of November 2024. Initially 50 Mbps will only be available on one AP at Lake Southerland, 2 APs on Dry Hill, one AP in Forks and 1 AP on Striped Peak. If you are served by an AP not capable of the higher speeds, you will remain on the 30 Mbps plan. Your 12/5/2024 Invoice will reflect the changes.

Appreciate your business and support of #ruralbroadband in Clallam County
